<ul style="list-style-type: none">Random Number Guessing Game : Java program for guessing a random number with limited attempts, multiple rounds, and scoring.Marks Calculation and Grading System : Java app to compute total marks, average percentage, and assign grades.Course Management System : Database system for managing courses and student registrations, including listing and dropping courses.	

Projects

Weather Web Application	Apr'24
--------------------------------	---------------

This is a simple weather web application that allows users to check the current weather conditions of any location worldwide. It's built using HTML, CSS, and JavaScript, and it utilizes the OpenWeatherMap API to fetch weather data.

- Real-time Weather Data**: Provides up-to-date weather information for any location worldwide.
- Lightweight**: Minimalist design for fast loading times and efficient performance.
- Deployed on Render**: The application is deployed and accessible on Render for easy access and demonstration.

Academic and Extracurricular Achievements

- Copyrighted Mouse Control Using Hand Gestures** at **PCET's NMIET** showcases innovative technology enabling mouse control through intuitive hand gestures, emphasizing originality, creativity, and technical expertise in advancing technology.[CERTIFICATE](#)
- Volunteered at Techfiesta 2023 and 2024**, contributing to the successful organization of the event and gaining valuable experience in event management, teamwork, and networking within the tech community.

Certifications

- I have certification from AWS, Cisco, JP Morgan, Let's Upgrade, Wells Fargo & DevTown.
